RocRoi. +34 973 62 20 35 aventura@rocroi.com rocroi.com

ROCROI: EDUCATIONAL, INSPIRING, FUN

RocRoi is a team of **outdoor professionals with over 25 years** of dedication to the world of activities. It was born from two brothers from Pallars, Lluis and Carlos, passionate about nature and outdoor adventure activities. They have always believed that the best way to be conscious of nature is by practicing activities in this environment, responsibly and contributing to increasing awareness of the conservation of the planet.

We continue to add new challenges and experiences, being **sustainable** and offering a constantly evolving **quality** service, thanks to the involved coordination team and technicians. Our mission is to focus on the development of the **human values** of children and young people, working every day to build a responsible society and promote coexistence. During the sessions, we pay special attention to ensuring active participation of the students and their knowledge of the basic elements of each activity.

Why RocRoi?

RocRoi offers an operational reliability and a team of professionals who are constantly striving for excellence in service, focusing on the students and teachers. We work with a common goal, **learn how to value nature and enjoy it safely.**

We want to offer unique moments to interact with the outdoors to make a conscious use of natural resources and take care of the environment, at same time we seek that students achieve autonomy and personal initiative. **We develop contents and objectives related to the school curriculum of each stage**, aiming to promote attitudes and values that contribute to coexistence, respect and the rights of people, inside and outside the classroom.

Today's commitment is the key to the future, that's why we make students aware of how important it is to take care of the environment where they live, recognising their actions have an **impact on the environment**. We show that it is possible to enjoy an activity as well as educate and raise awareness. It is important that students understand that all this work **will be reflected in future generations.**

RocRoi. +34 973 62 20 35 aventura@rocroi.com rocroi.com

Our purpose is to find solutions that improve our quality of life and minimise the impact on the environment, and become aware of our resources, as we are the engine of change that can lead to **transformation**.

We interact with the physical world to responsibly use natural resources and take care of the environment, while also seeking to foster **student autonomy and personal initiative**. We design activities inspired by the **content and objectives** of each curriculum stage, promoting attitudes and values that contribute to coexistence, respect, and the rights of individuals, bridging the gap between theory and practice.

We offer operational reliability with a team that constantly strives for service excellence, focusing on students and educators, and working towards a common goal: **learning to love and enjoy nature safely**. Our team of instructors directs their attention towards the participants with clear objectives:

→ Engaging the group
→ Explaining and demonstrating basic techniques for a first-hand experience
→ Enhancing group dynamics and cohesion
→ Being patient and approachable to convey the excitement of outdoor activities through playful experiences

ADVENTURE AT ROCROI

Activities

Leisure is a fundamental part of people's lives and a unique space for personal development. Furthermore, leisure becomes a highly relevant educational space by promoting **active participation and providing cognitive and social benefits**. Fostering a positive emotional climate and constantly seeking motivation are characteristic features of the activities we offer. Choosing a combination of activities is an opportunity to **promote cooperative work and address the intellectual, psychomotor, and social development** of students.

Workshops

Reaching a critical and **reflective perspective**, as well as stimulating students' capacity to learn, are aspects we consider when transmitting information.

During the workshops, in addition to working on the content specific to each of them, we aim to motivate students, **foster social relationships, promote autonomy, and encourage reflection on practice**. Similarly, it is important for students to learn about best practices, and we help during the learning process.

When conducting workshops, we consider what students will learn, how they will learn it, and why they will learn it. **Some of the workshops are specifically designed to address the competencies and content** of certain subjects.

Excursions

The reason why RocRoi stands out as a company is because it offers activities that take place in a **natural outdoor environment**.

Thanks to the excursions, we can bring students closer to nature in different centres, connecting and **working with concepts of biodiversity, ecosystems, and sustainability in relation to physical activity**, with the aim of creating a better world and a healthy lifestyle.

ROCROI CENTRE AT ***VILANOVA I LA GELTRÚ***

Our sea centre next to Barcelona

In Vilanova, you can enjoy school activities **throughout the year**. Combine fun and educational activities on the beach and in the sea while experiencing the beauty of the Garraf coast. The base is located a 15-minute walk from the train station, with space in front of the base for parking if the school arrives by its own bus.

SEA

- Kayak and Open Kayak
- Paddle Surf
- Sailing
- Big Sup
- Pedal boat (pedalo)
- Rafting
- Sea excursions

BEACH

- Nautic workshops
- Gymkhanas
- Games and sports
- Orientation course
- Curriculars workshops

DESCRIPTIONS OF THE SCHOOL ACTIVITIES OF ROCROI VILANOVA

AT THE SEA

Open kayaking: A fun and easy activity for beginners in the world of sea activities. Based on the instructors' explanations, games are played while the students learn the practice and gradually master the principles of kayaking.

Paddle Surf: An activity of initiation and/or improvement of paddle surfing, in which the playful part will be always present. From games to circuits, using previous learning and strengthening aspects such as body balance and proprioception**.**

Sailing: An ideal practice to get to know the wind of Vilanova and discover its possibilities is to start sailing in a playful and simple way. This activity can be combined with nautical workshops to deepen theoretical knowledge.

Big SUP: An activity that is both fun and involves a large-capacity board is ideal when the focus is on maintaining a playful environment full of laughter. It particularly emphasizes muscular work, body balance, and coordination of movements, all tied to camaraderie and cooperation.

Pedal boat (pedalo): The pedal boat is designed for those restless students who want to perform jumps and experience the sensation of sliding down a slide, ending up in the water and jumping again. Students will progress by pedaling and engage in dynamic practices led by the instructors.

Rafting: now you can experience the sensation of beating the waves of the sea, thanks to the games on the rafting boat. Use the paddles to steer the boat and work on stability and coordination, as well as promoting values such as cooperation and respect for the natural environment.

Kayak excursions: now you can venture out on trips with boats such as the open kayak or the sea kayak. Different destinations to choose from: *Playa Llarga de Cubelles, Las Calas de Sitges*, Excursion to *Pasífae* and departure towards *Els Colls*. A unique opportunity to enjoy the natural space with respect and conservation of the environment.

AT THE BEACH

Workshops: workshops to discover different concepts about everything that surrounds the sea. Learn about nautical sports by observing the facilities, the base, contact with the material and the explanations of the instructors. Some of the aspects worked on are: the importance of knots, orientation at sea, harbour lights, breakwaters and the behaviour of the waves.

Gymkhanas: share with your teammates the opportunity to overcome a series of tests and obstacles following established rules. It helps to improve aspects such as coordination, strength, dexterity and flexibility, while working as a team.

Games and sports: sports activities where we carry out different sports adapted to the natural environment and the open air, in this case the beach. In each of the sports and games, values and the opportunity to promote physical activity are transmitted. All in a natural environment and always promoting fair play.

Orienteering race: An activity to carry out an orienteering race together with the development of spatial perception, abstract interpretation applied to reality and cooperation for the achievement of objectives, through a roadbook.

Curricular workshops: In the workshops, various specific elements of the curriculum are addressed through explanations and practical experiments tailored to each educational level. You can choose the workshop "*Experience the Marine World!*" to identify microplastics through experiments or get in touch to inquire about the workshop that best suits your needs.

WHAT ACTIVITIES COULD YOUR STUDENTS DO?

Example 1:

From 9:00 am to 11:30 am

→ **Big SUP** as a team water activity, with balance games on the giant board, one of the most enjoyable combined activities to do on the Garraf coast.
→ Circuits and games with **Paddle Surfing** to practice body balance on the board, working on proprioception and enjoying the sea in all its splendor.
→ **Beach volleyball** to set up a station on the sand that allows the group to engage in activity on a different playing surface, enjoying this popular sport.

Example 2:

From 11:30 am to 2:00 pm

→ **Sailing** will allow us to enjoy the sea while sailing with privileged views along the coast of Vilanova i la Geltrú.
→ **Open Kayaking** to introduce participants to the world of water activities with a very stable and highly buoyant boat, ensuring the safety and participation of all group/class members.
→ We will use the **Rafting boat** at sea, either with the goal of riding the waves or simply enjoying the afternoon engaging in a cooperative activity that works on coordination.

ROCROI BASES ***IN LLAVORSÍ AND LA GUINGUETA D'ÀNEU***

The river and lake bases of the Catalan Pyrenees

In Llavorsí, next to the river, we have the activity base of RocRoi. Located in a privileged area of the Noguera Pallaresa River, for the past 25 years, we have been offering services from spring to autumn and have a great capacity to accommodate school groups of all ages.

In Guingueta d'Àneu, at Lake Torrassa, we have the base where we carry out activities in calm waters, close to the Alt Pirineu Natural Park.

RIVER BASE

- Rafting
- Canyoning
- River-boarding
- Open Kayak
- Trekking at the National Park
- Horse riding

LAKE BASE

- Kayak
- Archery
- Orientation
- Kayak Baptism
- BTT
- Multi-activities

DESCRIPTIONS OF SCHOOL ACTIVITIES IN ROCROI LLAVORSÍ

RIVER BASE

Rafting: this is the star activity on the river *Noguera Pallaresa*. Different stretches and durations, depending on age. It works on concentration, teamwork and balance, descending safely with the current of the water and steering the boat with the paddles.

Canyoning: the best way to get started in the world of canyoning. You will walk, swim and abseil, while enjoying jumps, slides and natural pools along the way. Always accompanied by a guide and with safety throughout the whole route.

River-boarding: an individual discipline where you can take control of the river, thanks to the floating board, controlled by the movement of your own body. You will improve your physical endurance and at the same time you will be guided by your intuition. Different sections adapted for different age groups.

Open kayak: you will learn the basics of paddling, progression and turning, driven by the river water. Improve aspects such as coordination of movements, balance and resistance.

Trekking: The National Park, located in the heart of the Pyrenees mountain range, stands out for its forests, water, and green meadows. As it is a low-difficulty activity, it is ideal for all ages. You will enjoy a mosaic of mixed forests, thanks to the vegetation in the area. There is also the possibility to combine the activity with a 4x4 experience.

Horse riding: It allows for the stimulation of emotional and affective development while working on precision, with direct contact with nature. The interaction with the group and collaborative tasks promote love and respect for animals.

Acrobatic Park: overcome different levels of circuits, overcoming obstacles, walkways, wooden bridges, cables, and zip lines. The instructors will explain the equipment we will use during the circuit and how it works. To finish, we will be equipped with a harness, carabiner, and helmet. It is recommended to wear comfortable clothing, sports shoes, and sunscreen.

Paintball: with groups of up to 45 people, starting from 12 years old, and in a forest prepared for the activity, two teams must conquer the opposing team's base or eliminate the players from the other team using a compressed air marker (gun) with 100 paintballs that leave a colored mark upon impact. Participants are provided with coveralls and a protective mask.

Multi Yeti: located next to the river and surrounded by riverside trees. It is a circuit where participants have to cross different bridges (monkey bridge, Tibetan bridge, ropes), with a total of 4 bridges and a zip line at the end. When the group arrives, we equip them with a harness, helmet, and carabiner. It is recommended to wear comfortable clothing and closed-toe sports shoes.

LAKE BASE

Archery: promotes concentration and self-control, with the practice of archery. Effort and self-improvement will be present during the practice, as the group faces each challenge.

Orientation: You will explore the landscape based on signals that provide clues about the location. You will maintain contact with nature, interact with the environment, and develop ingenuity and conflict resolution skills, all within a limited space.

Kayaking: guided kayaking activity in the calm waters of the Guingueta d'Àneu Lake. You will discover the landscape and the types of paddling that you can do in a kayak. You will learn the position for a correct paddling and you will learn how to move in the area of the Natural Park.

Mountain biking: an outing in the Alt Pirineu Natural Park, where you can discover the benefits of mountain biking. A fun route with your companions. Ideal for working on coordination and balance and promoting healthy activities. Activity adapted to each stage.

Multi-activities: if you are looking to spend a day with a range of activities at the Guingueta Lake, you can choose combinations that include canoe-kayaking, mountain biking, archery and/or orienteering. It is possible to choose packages of 2 or 3 activities.

Quads: Hop on a quad to ride a circuit with 125cc adapted vehicles and delimited tracks. This activity is designed for beginners and does not have a competitive purpose. Circuits are available for 15 or 30 minutes.

WHAT ACTIVITIES COULD YOUR STUDENTS DO?

Example 1:

From 11am to 1pm

→ **Rafting descent** for the most adventurous, with the thrill of going down the Noguera Pallaresa river and experiencing the rapids safely. Dynamized by certified guides and outdoor enthusiasts, with different available routes to choose from.

Example 2:

From 9am to 11:30am

→ The **Berrós Canyon** is an activity that allows beginners to approach the canyon easily, perfect for students to try some water slides, jumps, and get wet in natural pools carved into the rock.

From 3:30pm to 5:30pm

→ **Multi-adventure activity and Archery**, for engaging in more tranquil activities at Lake Torrassa, surrounded by the spectacular environment

ROCROI BASE ***IN ANDORRA***

Grau-Roig and Ordino-Arcalis our activity centres in Grandvalira

With two centers located in an internationally recognized resort like Grandvalira, in the Grau-Roig and Ordino-Arcalís sectors, RocRoi offers you the opportunity to enjoy the snow like never before during winter and the green nature during summer.

WINTER

- Snow school raid
- Snowshoeing
- Mushing
- Snowtubing
- Igloo construction
- Explorers path

SUMMER

- Explorers path
- Adventure smuggling raid
- Night excursion

DESCRIPTIONS OF THE SCHOOL ACTIVITIES OF ROCROI ANDORRA

WINTER

School raid: A combination of activities in the snow. You will build igloos, use an ARVA (avalanche transceiver) to receive signals and find a treasure, practice curling, tubing, and archery, participate in a skill race using snowshoes, and solve questions located at different points while working on orientation skills.

Snowshoeing: snowshoes allows us to venture into the high mountains comfortably and without prior knowledge. Suitable for all types of participants, this activity allows us to adapt different circuits based on age, enjoying a unique landscape in the Grau Roig sector.

Mushing: a sledging trip along a set route. The Nordic dogs will guide the sled and will be part of the adventure, while you work as a team and enjoy this practice in the middle of nature, in a sustainable and safe way.

Snowtubing: fun and adrenaline on top of the tubing, in the open air. The aim is to go down the snow slides while spinning on the tubing.

Igloo building: build your own igloo in the snow. Choose the place and, like the Eskimos, build the igloo from blocks of snow that will help you to form the walls and the dome. You will discover Arctic customs and you will be the protagonists during the construction process.

SUMMER

Explorers' path: become a real explorer. You will do different tests where you will work on orientation, balance, skill, survival, circuits and enigmas, with the help of a map and a compass. The theme is based on the stories and methods of smugglers in Andorra at the time.

Night excursion: discover the mountain in a different way. Night adventure adapting the route according to the students' cycle.

WHAT ACTIVITIES COULD YOUR STUDENTS DO?

Example 1:

From 10am to 12pm

→ **Guided Snow Rackets excursion**, allowing the group to venture into the other mountain without needing previous knowledge. We will enjoy unique circuits offered by the landscape of Grau Roig.

Example 2:

From 10am to 1pm

→ Combination of snow activities to promote cooperation and group cohesion, including **snow rackets challenges, igloo building, and the use of ARVA** (avalanche transceiver).

From 3pm to 4pm

→ Thanks to **snowtubing**, it will be possible to unleash adrenaline as the group descends the snowy mountain spinning on the tubing. A highly recommended activity if you're looking for an afternoon filled with guaranteed laughter.

ROCROI BASE IN MURILLO DE GÁLLEGO

Our NEW river and mountain base in the Aragonese Pyrenees

In Murillo de Gállego, you will find a wide range of possibilities. This base is located in an ideal natural environment for practicing adventure activities. We offer activities in Murillo de Gállego (Pre-Pyrenees of Aragon) as well as in Jaca.

RIVER AND MOUNTAIN

- Rafting
- River-boarding
- Canyoning
- Canoe trip
- Via Ferrata
- Aquatic gymkhana
- Climbing
- Hiking
- Orientation
- Paintball
- Laser combat
- Outdoor escape
- Arborism
- Cultural visits
- Laser combat
- Multi-adventure circuit
- "Humor amarillo"

DESCRIPTIONS OF ROCROI MURILLO SCHOOL ACTIVITIES

River and Mountain

Rafting: you will go down a stretch of the river in a rafting boat, accompanied by an instructor. You will develop strength, endurance and coordination between companions, encouraging a fun and collaborative activity.

River-boarding: this consists of descending white water. Riverboarding allows the person using it to stay afloat, while at the same time propelling themselves through the current with their fins. We will work on elements such as propulsion and displacement.

Canyoning: activity in direct contact with water. Canyoning allows students to follow the course of the river by jumping, sliding down slides and abseiling.

Canoe trip: route carried out with a highly stable boat. Coordination, teamwork and balance will be worked on, maintaining stability on the canoe.

Via Ferrata: you will practice elements such as coordination, safety elements and skills in this hiking and climbing activity.

Aquatic gymkhana: recreational activity in the aquatic environment, where you will learn the elements of safety and swimming, through recreational games.

Climbing: focused on overcoming challenges and doing so safely and without risk. The climbing activity allows you to apply the technical knowledge of sport climbing in practice.

Hiking: if you are looking to discover rural life and enjoy unique views in the middle of nature, while at the same time understanding it and reflecting on the environment, the hiking route will allow you to discover the fauna, flora and geology of the area.

Orientation: you will learn to decipher clues and discover the main monuments and characteristic areas of the area, while observing the flora and fauna.

Paintball: a game where you will have different roles during the game. Participants must reach a score and avoid being eliminated. It will be done by moving the body and throwing paintballs at different objects and participants in the game.

Outdoor escape: you will work in groups to decipher the enigmas and mysteries. You will use a Tablet, an Action Pack and a GPS to reach the areas with clues, in teams. It can be carried out both in the natural environment of Jaca and in the city.

Arborism: you will go on routes through the trees, with circuits prepared and adapted to different heights. There are different levels of difficulty and you will move along zip lines, crossing bridges and climbing ropes.

Cultural visits: different options to visit; Loarre Castle, Monastery, Citadel of Jaca and Huesca. You will see Romanesque fortresses, castles, monasteries, the old town and museums, discovering with guided tours, the medieval life of the time.

Laser combat: simulation of combat games. Technological equipment will be used with infrared beams that detect the opponent when they hit the sensors. It is a harmless system, so no special clothing or protection is required.

Multi-adventure circuit: a combination of recreational activities ideal for initiation to mountain sports and for working on agility and coordination. Participants will be distributed through a circuit and will carry out the activities of climbing, abseiling, zip-line and archery.

"Humor Amarillo": crazy and fun tests with which to have a great time and the most fun. You will try activities such as human skittles, the skills circuit, the wheelbarrow race and many more, always with the best atmosphere and company.

WHAT ACTIVITIES COULD YOUR STUDENTS DO?

Example 1:

From 10am to 1pm

→ **Multi-adventure circuit**, where the group will engage in various activities to initiate themselves into the world of mountain sports: climbing, rappelling, zip-lining, and archery.

Example 2:

From 10am to 1pm

→ **Hiking** to explore nature and contemplate the flora and fauna, discovering the geology of the area. Different locations available: Reino de los Mallos, Pyrenees, or Sierra de Guara.

From 3pm to 5:30pm

→ **White water rafting**, descending and cooperating to steer the boat down the river. We work on coordination, promote social interaction, and foster teamwork.
